None.

HEAD:

Shape: Modified Wedge with seven flat planes. (A vertical line from tip of nose to bottom of chin. Profile from tip of nose to forehead. Flat top head from the front of the forehead back. Two planes in the muzzle (one on each side). Two planes formed by the high, wide cheekbones (one on each side).
Profile: Two flat planes. Straight nose and flat forehead.

Muzzle: Medium long.

Skull: Top flat and narrow with high forehead.

Chin: Flat vertical plane from tip of nose to bottom of chin.

Ears: Rather Large. Almost as wide at base as tall with slightly rounded tips but appears pointed. Set as much on the side as top of head. The outside covered with short, fine hair and furnishings cover approximately 1/2 inside ear.

Eyes: Rather large oval/almost round, Slight oriental slant. Set far apart. Green color in adults, and yellow to green in kittens.

Neck: Long and slender.

BODY:

Torso: Foreign.

Size: Males proportionally larger than females.

Length: Long.

Boning: Fine. Note: Cat will appear to be chunkier due to density of coat. Fine bones do not mean a small cat.

Musculature: Lithe, slender. Having solid weight, not excessive bulk.

Legs: Long and fine-boned but firm.

Feet: Small well-rounded, appears to stand and walk on tiptoe.

Tail: Long, straight, tapering from a rather thick base to slender tip.

COAT TEXTURE:

Length: Short.

Texture: Fine, soft, silky.

Density: Dense, plush double coat.

COLOR: Even bright blue throughout. Guard hairs tipped with silver, Deeper tipping is preferred making the cat appear lighter in color. Ghost tabby markings permitted on kittens.

PENALIZE: Weak chin, eye color not completely green. Full penalty for eyes with no green. Muzzle break
